Rule Change Intent

To maintain integrity, safety, and fair-play within the sport, all officiating course designers, national and foreign, should be held to the same standards as national licensed officials, stay up-to-date on current national rules, and follow consistent practices for officiating at national events. This rule change removes the ability for FEI licensed course designers to officiate at the national level without first obtaining the requisite training and licensure from the Federation. Federation Jumper Course Designer licensing requirements and grandfathering procedures for FEI Jumping Course Designers will be outlined in the Federation's Policies and Procedures document.

A revised effective date of 12/01/2020 has been requested due to the fact that the amendment schedule for the USEF Licensed Officials Policies and Procedures will not provide foreign FEI Course Designers with the ability to obtain a Federation license before the 12/1/19 effective date because the grandfathering policy and process will not be in place. The adjusted effective date will allow the grandfathering process to be finalized and included in the USEF Licensed Officials Policies and Procedures.
